BELOVED COMPANIONS**

TAILORED SERVICE OPTIONS

At Hereafter, we understand that each client's needs are unique. That's why we provide a range of options to cater to their preferences:

Communal Services

A communal service allows multiple pets to be respectfully aquamated or cremated together, with ashes scattered in a serene communal memorial space.

Private Services

For clients who wish to keep their pet's ashes, we offer private services with personalized urns, providing a lasting memory of their beloved companion.

Viewings

We understand the importance of closure for pet parents. We offer viewings prior to aquamation or cremation, providing an opportunity for final goodbyes and peaceful moments of reflection.

Aquamation - A Serene Passage

Aquamation, also known as water cremation, is an eco-friendly and gentle alternative to traditional cremation. With warm water and an alkaline solution, this serene process lovingly returns pets to the essence of nature. It leaves no harmful emissions, making it a kind choice for the environment and a peaceful option for clients seeking a greener farewell.

Traditional Cremation - Honoring Tradition

Respecting time-honored traditions, our Traditional Cremation method ensures dignity and reverence for your clients' pets. With a high-temperature process, we handle every step with care, providing lasting ashes that serve as a cherished memorial.

Comprehensive Selection of Urns & Memorial Items

Hereafter offers an extensive array of beautiful urns and memorial items, each crafted with love and care. From elegant keepsake urns to personalized memorial plaques, our collection allows your clients to choose a tribute that perfectly reflects the unique bond they shared with their furry friends.
